Election/Restrictions

The election filed on April 24, 2006, is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

Applicant elected Group I directed to claims 1-25 which were instructed that if elected, were further restricted in to 3 Species. Applicant failed to elect one of the Species to continue prosecution. Since claims 26-30 have been cancelled, the election requirement is to be elected from one of the following Species groups:

This application contains claims directed to the following patentably distinct species:

Species 1, Figure 5 (claims 1-12) directed to allocating address space for a plurality of peripheral devices.

Species 2, Figure 5 (claims 13-20) directed to a method for determining a PCI hierarchy, walking the PCI hierarchy, building a map, computing a virtual resource map and allocating resources for peripheral devices.

Species 3, Figure 5 (claims 21-25) directed to machine readable media having instructions for building a map based on resource requests, computing a virtual resource map and allocating address space for peripheral devices.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the

Art Unit: 2181

species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David E Martinez whose telephone number is (703) 305-4890. The examiner can normally be reached on 8:30-5:00 M-F.
